**MERCER SECURES CANADIAN ORDER FOR SLICING MACHINERY**

Mercer Group Limited announced today, that 75% owned subsidiary Titan Slicers has secured an order for more than \$NZ 5m from Maple Leaf Foods.

CEO, Rodger Shepherd, said "I have been very impressed with the Titan management who have worked for many weeks in Canada to prove their slicing technology is world leading. As a result of this, they have received a good order from Maple Leaf, and we expect this to be the start of many more orders in the North American market. We are planning to set up our own office in North America and hiring a sales representative there, from which we can expand."

Mr Shepherd advises that this deal supports the guidance provided to the market of EBITDA between \$3m and \$4m for the July 12 to June 13 financial year.
